Sky is to enter the IPTV arena

World Internet TV on PC (blog)

The Sky entry into the UK IPTV arena with their own internet-hosted TV service, is due to begin before July of this year, the satellite broadcaster pledged. The station will see many of Sky's existing channels, including Sky Movies, being streamed over ...

LG HLX56S net savvy 3D Blu-ray soundbar combo

Register

With integrated 3D Blu-ray player, copious amplification and IPTV portal, it's got everything you need for the upmarket man-cave, in a package easily parked beneath a 40in or larger flatscreen. Gimmicky it may be, but the HLX56S is well-made and ...

CNTV, BesTV Partner on IPTV Platform Operations

Marbridge Consulting

Shanghai Media Group's (SMG) IPTV subsidiary BesTV New Media (600637.SH) has announced that BesTV, along with SMG and SMG subsidiary Radio and Television Shanghai (RTS), has signed an IPTV broadcast and control platform cooperation agreement with ...

Addressing network time protocol synchronization for IPTV, IMS and Femtocells

EE Times

Ethernet displaced TDM transport, and IP is the underlying service delivery protocol for IPTV, VoIP, multimedia services, and of course, the Internet. These packet-based technologies have placed new demands on network-wide timing.

TeliaSonera celebrates half a million Swedish TV subs

IPTV News

Nordic telecoms giant TeliaSonera reached the milestone of 500000 subscribers for its Swedish IPTV service 'Telia Digital TV' in the fourth quarter of 2011, giving it an 11% share of the Swedish TV market. Across all markets in which it operates TV ...
