Romtelecom gains TV customers

Broadband TV News

Romtelecom ended the first quarter with 1190721 subscribers to its DTH, IPTV and cable services, or 11.8% more than a year earlier. At the same time, its broadband subscriber total rose by 8.9% year-on-year to 1156440. The Romanian telco noted strong ...

Huge IPTV gain for Magyar Telekom

Broadband TV News

Following a slow start, Magyar Telekom's IPTV service has really begun to take off, ending the first quarter with 256434 subscribers, or 75.5% more than a year earlier. This put it just behind the telco's satellite TV operation in terms of take-up, ...

CenturyLink's legacy services drag earnings down 5.2% amidst gains in ...

FierceTelecom

As has been the case in previous quarters, the telco saw increases in strategic revenues--including high speed Ethernet-based business services, consumer broadband and Prism IPTV--being more than offset by declines in legacy voice revenues and access ...

Ovum lauds BT's Vision strategy

IPTV News

Mark Giles, analyst at Ovum (part of Informa Telecoms & Media, publisher of IP&TV News), commented: "BT saw continued strong growth in Infinity and Vision (IPTV) subscribers. With its planned update to Vision 2.0 being implemented and the launch of ...

KyLin TV coming to Panasonic Viera Connect

CNET

This eliminates the need for an extra settop box, which is currently required for local subscribers of the China-based Internet Protocol TV (IPTV) operator. According to a Panasonic representative, the new KyLinTV app for Viera Connect will also offer ...

IPTV could make home fibre feasible

TechCentral

Gabrielle Gauthey, executive vice-president of public affairs at Alcatel-Lucent, says when France began rolling out high-speed fixed broadband lines, one of the main drivers of service uptake from consumers was Internet protocol television, or IPTV for ...
