IPTV News

Portugal's leading telecoms provider has launched a new mobile TV service which offers 60 live TV channels and video-on-demand titles, using delivery technology from Alcatel-Lucent and content protection from US firm AuthenTec. Portugal Telecom's new ...

Buckeye takes TV Everywhere with Azuki

FierceIPTV

Buckeye CableSystem is leaning on Azuki Systems to provide the technology it needs to drive its video-on-demand (VoD) and linear programming lineups onto multiple screens--both inside and outside the residence--as it becomes part of the TV Everywhere ...

Cable and wireless pressures could prompt Rogers to lower its 2012 outlook

Financial Post

In its first quarter, Rogers said it lost 7000 cable customers in a highly competitive period with Bell's IPTV service. Huang said at that time the loss of subscribers was not a "one-off event"; and he predicted Rogers will lose 86000 cable subscribers ...
