### Microsoft leads in IPTV middleware market: report

Computer Business Review

Microsoft's Mediaroom IPTV platform has expanded share in IPTV middleware market to 23% by the first half of 2013 despite competition from many small and regional players, according to a report by ABI Research. According to the report, the number of ...

### MegaFon IPTV faces delay as company changes supplier

DigitalTVEurope.net

Russian service provider MegaFon has decided not to go ahead with an IPTV launch based on the platform it has been testing for the last two years and has chosen a new supplier to take its plans forward, according to local reports. MegaFon has used ...

### Portugal Telecom passes 600k IPTV subs

IPTV News

Portugal's dominant telco had reached 1.2mn customers for its pay-TV service 'Meo' (delivered via IPTV and DTH) by the end of September, up 23% from one year earlier, with 41,000 added in the preceding three months alone. The company adds that ...

### IPTV helps Manitoba Telecom as legacy business declines

FierceIPTV

IPTV and high-speed Internet--along with the increasingly necessary mobile wireless business--have helped Manitoba Telecom Services partially overcome a continuing-to-decline legacy voice business. While MTS said third quarter overall revenue was ...

### Kansas telco TCT boosts IPTV services

FierceIPTV

It is probably mostly coincidental that Northeastern Kansas telco Tri-County Telephone Association (TCT) has upgraded its IPTV back office middleware at the same time Google Fiber rolls out Google (Nasdaq: GOOG) TV in Kansas City. More likely, the ...

### BlueSky launches first IPTV service in Samoa

FierceIPTV

BlueSky Samoa has launched what it claims is the first IPTV service in the South Pacific, Moana TV, using broadband ADSL to deliver 23 channels of programming to digital set-top boxes in consumer homes. The launch is a big deal for government officials ...

### Exclusive: Microsoft named as leader of two global IPTV segments

IPTV News

US firm Multimedia Research Group (MRG) has exclusively given IP&TV News access to some of its latest findings on the global IPTV market, which identifies Microsoft as leader of two separate vendor product categories, and China Telecom as the largest ...
