TDS, Bell Aliant and Hawaiian Telcom boast subscriber gains in Q1, driven by ...

FierceIPTV

IPTV services continued to drive business for North American telcos according to first quarter earnings results released this week. TDS Telecom (NYSE: TDS), Bell Aliant and Hawaiian Telcom (Nasdaq: HCOM) all cited their IPTV business growth in earnings ...

Residential gateways the key to operator revenues, says Infonetics

FierceIPTV

According to the "Residential Gateway Strategies: Global Provider Survey," broadband data, IPTV, Wi-Fi hotspot access and VOIP dominate the offerings provided by the gateway devices. By next year, the study estimates, about 44 percent of all operators ...

IPTV not getting the attention it deserves from service providers

FierceIPTV

Check the results from AT&T (NYSE: T), the nation's largest IPTV provider. Or go to Canada where Bell Aliant has come up big again by using its fiber networks to deliver television over IP. Or maybe travel to Hawaii, where Hawaiian Telcom (Nasdaq: HCOM) ...

ADTRAN boosts Sycamore Telephone's \$4.1 million FTTH upgrade in rural Ohio

FierceIPTV

ADTRAN is providing a portfolio of equipment to help Sycamore deploy what the news release described as "a high capacity fiber access network that easily scales to handle the most bandwidth-intensive services, including IPTV, Voice-over-IP (VoIP) and ...

CIO interview: Paul Freemantle, IT director, Arqiva

ComputerWeekly.com

As the delivery of internet content to televisions becomes standard, the IT strategy at broadcast infrastructure provider Arqiva is focused on helping meet corporate client needs and customer demands for emerging models such as IPTV. IT director Paul ...

Trial run for Movistar's new IPTV platform

Rapid tv news

From now until 21 May, the rest of Spain will gradually receive the new version of Telefonica's IPTV platform. The company will shortly explain how Movistar TV will change and announce the concrete dates for the complete updating of the system.

Telefonica replaces Imagenio IPTV service with Movistar TV

Telecompaper (subscription)

Telefonica Spain has launched Movistar TV, an upgraded IPTV service that replaces its previous service, Imagenio. Movistar features a faster and more intuitive user interface. The switch to Movistar is completely automatic for end users. In addition to ...
