Worldwide IPTV subs up 36% in 2012

IPTV News

Demand for IPTV services picked up “significantly” last year, according to US research firm MRG, which estimates that the number of IPTV subscribers worldwide rose 36% in 2012 to reach 77mn, with strong growth in all geographic regions. Overall, the ...

Vubiquity: “We are so much more than the sum of our parts”

IPTV News

Doug Sylvester, president of US firm Vubiquity, a provider of multi-platform video services, talks to us about the company's recent name change, its plans for 2013, and what he sees as the most exciting area of potential growth for IP video delivery ...

Romania sees TV service provider growth, digital progress

DigitalTVEurope.net

Romanian TV retransmission services including cable, satellite and IPTV systems served over six million homes, representing total household penetration of over 85%, at the end of 2012, according to a survey by regulator ANCOM. Cable networks grew 6.4% ...

UTStarcom Reports Unaudited First Quarter 2013 Financial Results

Wall Street Journal (press release)

As previously announced, the Company closed the divestiture of its IPTV business in August 2012, but has not yet met the requirements for reporting those results as discontinued operations because of the Company's continuing involvement. Therefore, to ...

UTStarcom posts \$5mn loss for Q1

IPTV News

Beijing-based telecoms equipment vendor UTStarcom has posted a US\$ 5mn net loss for the first quarter of this year, but expects profitability to improve once it can count the IPTV business it sold last August as discontinued operations. Total revenues ...

Portland Telco delivers local DTV stations via IPTV to Roku box

Broadcast Engineering

In concept it's really not different than our existing IPTV service. It's using the same headend equipment, we've just added an Elemental encoder to convert signals to HLS. So, my dilemma today is getting broadcasters to understand what a Roku box ...

HyppTV goes for bigger market share

The Star Online

TELEKOM Malaysia Bhd's (TM) Internet protocol television (IPTV) service HyppTV, which is fast becoming more significant part of the group, is upping the ante to grab a larger market share. Executive vice-president of new media Jeremy Kung tells ...
