Sigma Designs' Q1 bottom line boosted by IPTV, set-tops, home connectivity

FierceIPTV

IPTV, both directly and peripherally, proved to be a good business for connected media platform developer and system-on-a-chip (SoC) provider Sigma Designs in the first quarter. The company reported net revenues that were up \$8.3 million to \$52.5 ...

More growth in Asian market for The WotWots

Kidscreen

After a strong response in the region to season one, China's IPTV service BeSTV has picked up season two of the New Zealand-bred preschool series The WotWots. The Pukeko Pictures-produced property is also expanding its presence in Southeast Asia ...

Jeff Weber replaced as AT&T's president of content

IPTV News

AT&T has confirmed the replacement of Jeff Weber as president of content and advertising sales, moving him to a special project role and naming Aaron Slatore as his successor. Weber has played a key role in getting the telco's managed IPTV service 'U ...

Hulu purchase would make DirecTV a Broadband Virtual Network Operator

FierceIPTV

What worked well in the last century--delivering a more attractive package of TV channels with better quality and better customer service than incumbent cable operators--is threadbare in an era of interactive IPTV, OTT and TV Everywhere. While DirecTV ...
