Amino profits jump to \$3.97M on IPTV/OTT, connected home strategies

FierceIPTV

A strategy of building devices that deliver a mix of pay TV services via both IPTV and OTT and an ongoing focus on the expanding connected home environment helped Amino Technologies rack up some hefty first half profit figures, the vendor announced ...

Casa Systems Selected by Guangzhou Digital Media Group for Large-Scale CCAP

Twinsburg Bulletin

With Casa's CCAP platform, Guangzhou will be able to offer highly scalable broadband services such as IPTV, MPEG video and interactive gaming, as well as traditional broadband access and VoIP services. Guangzhou is China's sixth largest city with an ...

Casa notches large-scale CCAP deployment in China

Communications, Engineering & Design Magazine

The Casa C10G platform enables cable operators to deploy DOCSIS, IPTV and MPEG video on a single chassis over a single port. When combined with its DS8x96 module, it creates a dense I-CCAP configuration while also lowering power consumption.

STB market holds its own

Broadband TV News

The set-top box market (STB) is set to defy the challenge of multiscreen, with global shipments of devices used to receive cable, satellite, terrestrial and IPTV digital TV services set to rise to 269 million this year. According to the latest IHS Set ...

Telstra readies for an IPTV future

iTWire

Foxtel penetration is stuck at 30% – the big growth will come from IPTV. In April of this year Telstra began a major review of its operations, in which up to one third of its 35,000 staff will be reassigned or made redundant. All parts of the ...

Wisi, IP.Netcom combine HbbTV with IPTV for new STB

Telecompaper (subscription)

Germany-based Wisi Communications and Austria's IP.Netcom have introduced a hybrid set-top box (STB) combining HbbTV with IPTV for the Multi Screen Content Management System 'AiMS'. AiMS presents the available services in an identical lay-out and ...

Hulu cancels sale again; gets ready to take on Netflix, Amazon

FierceIPTV

DirecTV needed an online streaming site to bulk up its business and AT&T, which reportedly partnered with the Chernin Group, could have blended the service seamlessly into its U-verse IPTV play. Those, and others interested in plunking down big money ...
